

Online High School Visits

- Live engagement with undergraduate prospects
- Attendees from pre-selected prestigious schools
- Emphasis on value over volume

In partnership with schools like:

Exhibitor cap:
40*

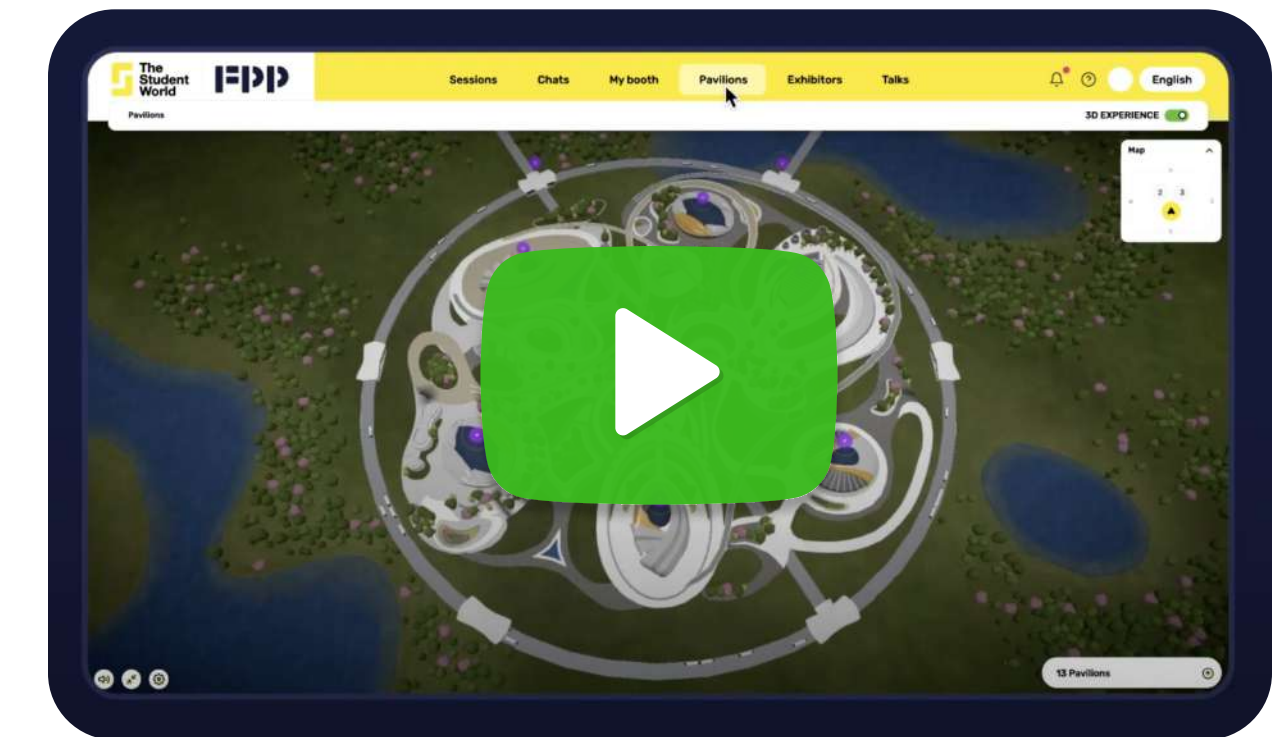

What is an Online High School Visit?

Partnering with reputable international high schools, Online High School Visits run on our innovative proprietary online platform and provide access to excellently prepared prospective undergraduate students from specific countries around the world. A significant benefit is that you'll have advance knowledge of participating school, providing clarity on the kind of student you can expect to engage with.

Online High School Visits can welcome anywhere from a few hundred students and a couple of schools, to several thousand from over 20 regional schools. Post-event, exhibiting institutions will get actionable lead data in their FPP Hub which is easy to follow up with or integrate with any CRM.

*Whilst there is a cap of 40 exhibitors, this can be increased upon request of the hosting high schools.

01

PRE-EVENT KNOWLEDGE

As these events are set up with specific groups of high schools, you get to know in advance the kind of students you'll be meeting.

02

AN INTERACTIVE BOOTH

A unique 3D booth showcasing brochures, videos & more for students to view & save.

03

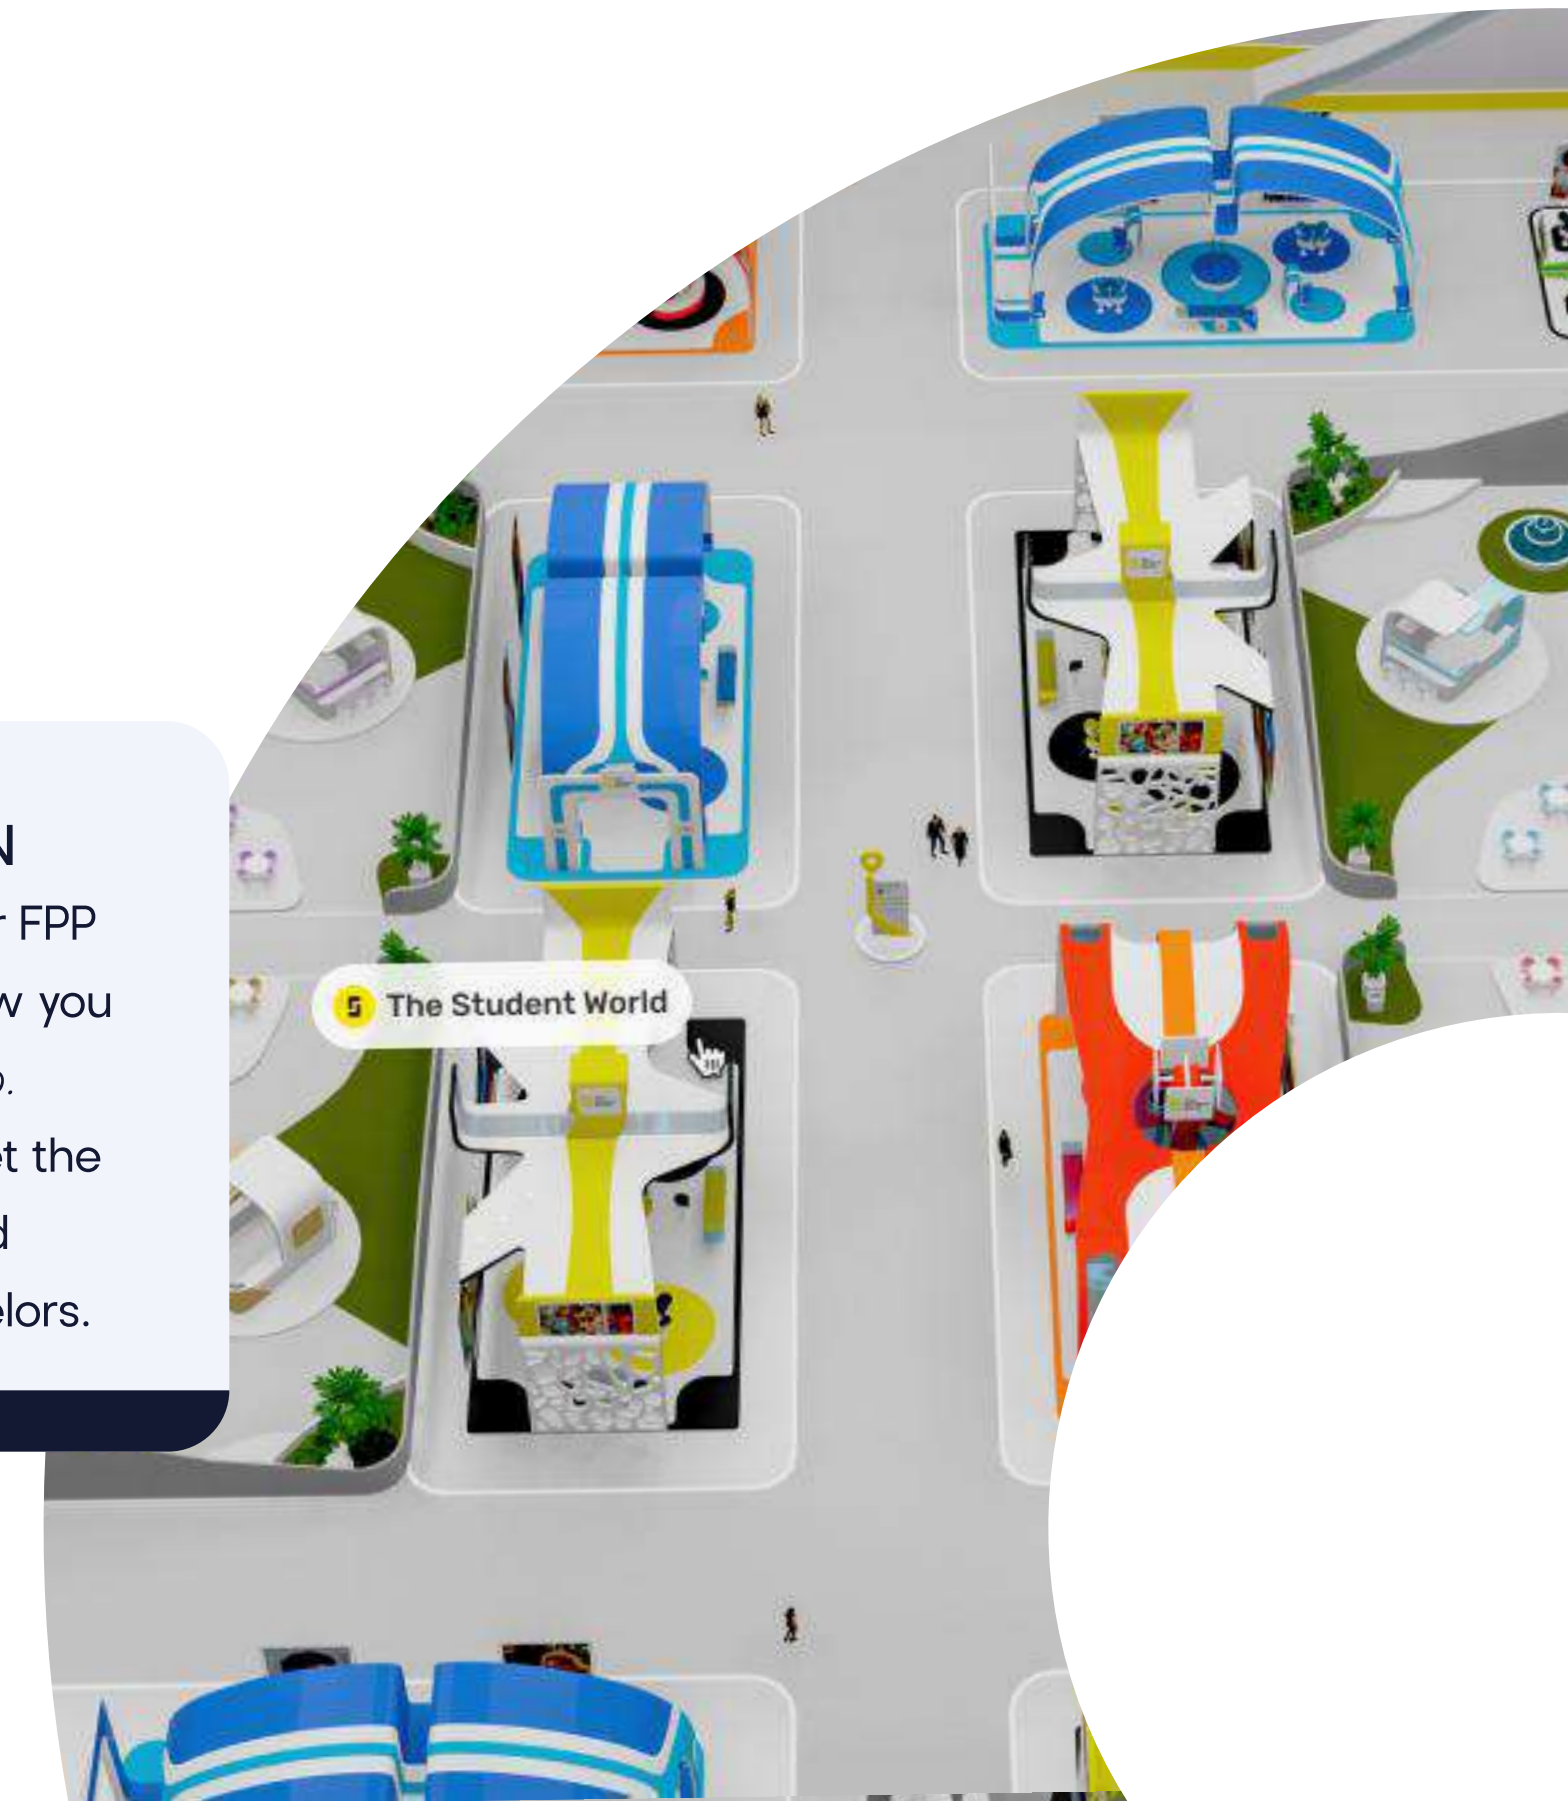

ON-DEMAND LIVE ENGAGEMENT

Connect with students visiting your booth live over 1-1 text or audio/video chat, with full visibility of their unique profiles.

04

POST-EVENT ACTION

Leads you gain are in your FPP hub & automatically follow you in *The Student World* app. What's more, you also get the opportunity for continued engagement with counselors.

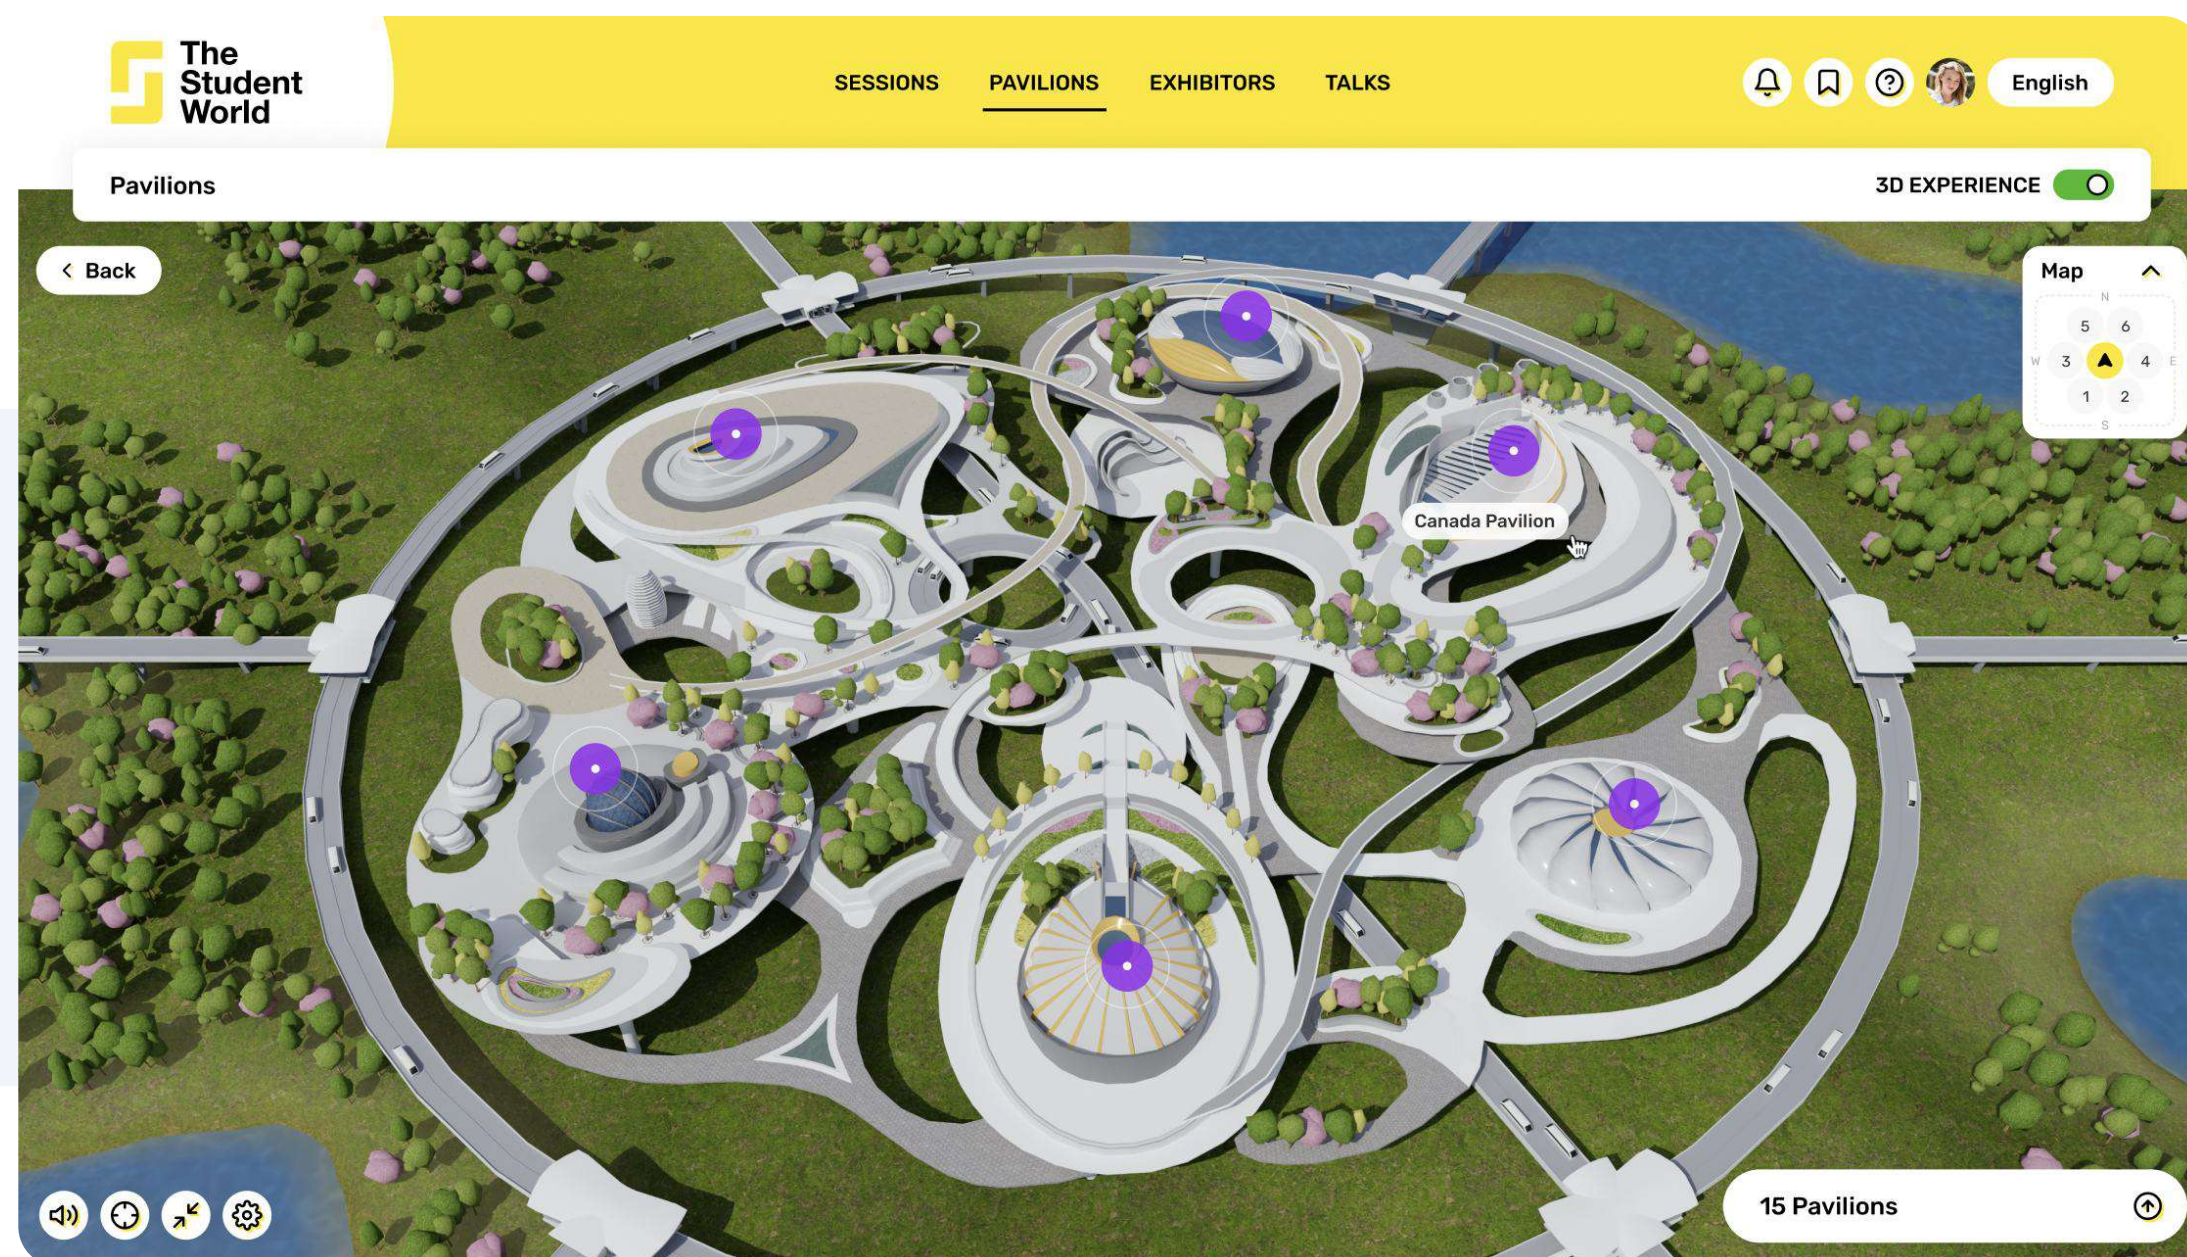

An immersive & dynamic venue

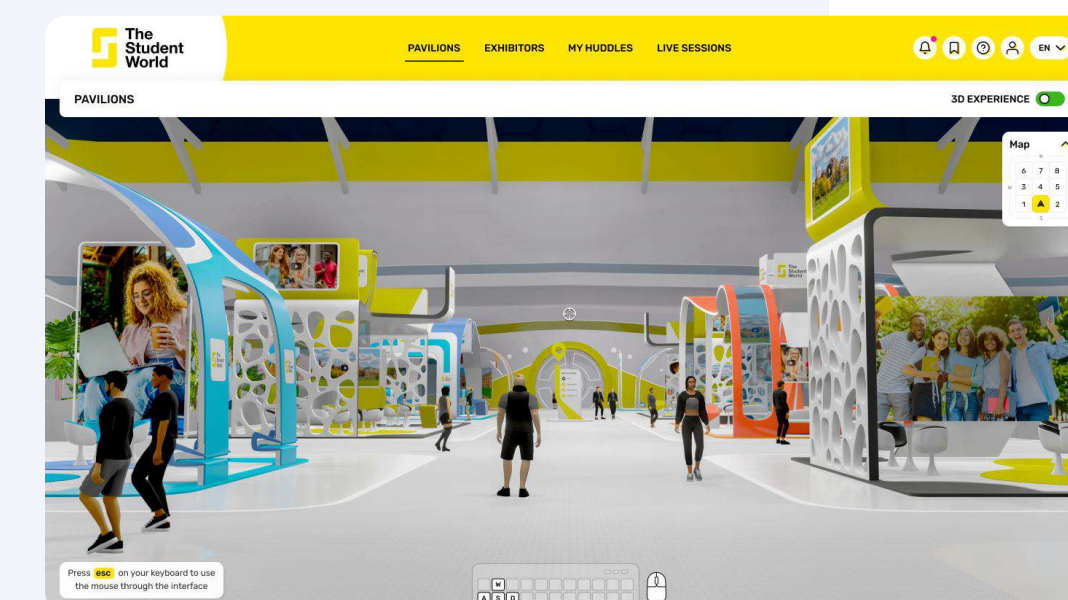

The experience

Recruit locally, globally!

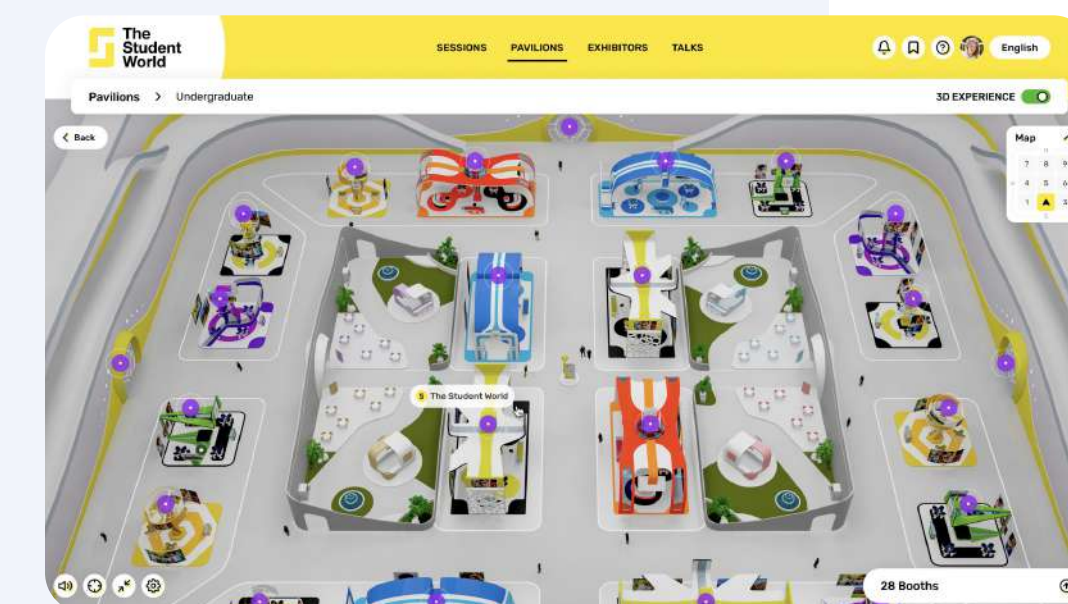

At an Online High School Visit, attending students explore an immersive, multi-layered venue segmented into navigable Pavilions, organized by program type or region. They have at least from 1.5 to 2 hours to explore and connect with exhibiting institutions.

In each Pavilion, students can walk around and explore the booths of all exhibiting institutions. They can enter any booth to discover more and chat 1-1 with representatives.

Students explore booths in either 1st person or bird's eye view, or even just flat 2D if they prefer. This enables them to access your institution in the way that suits them best.

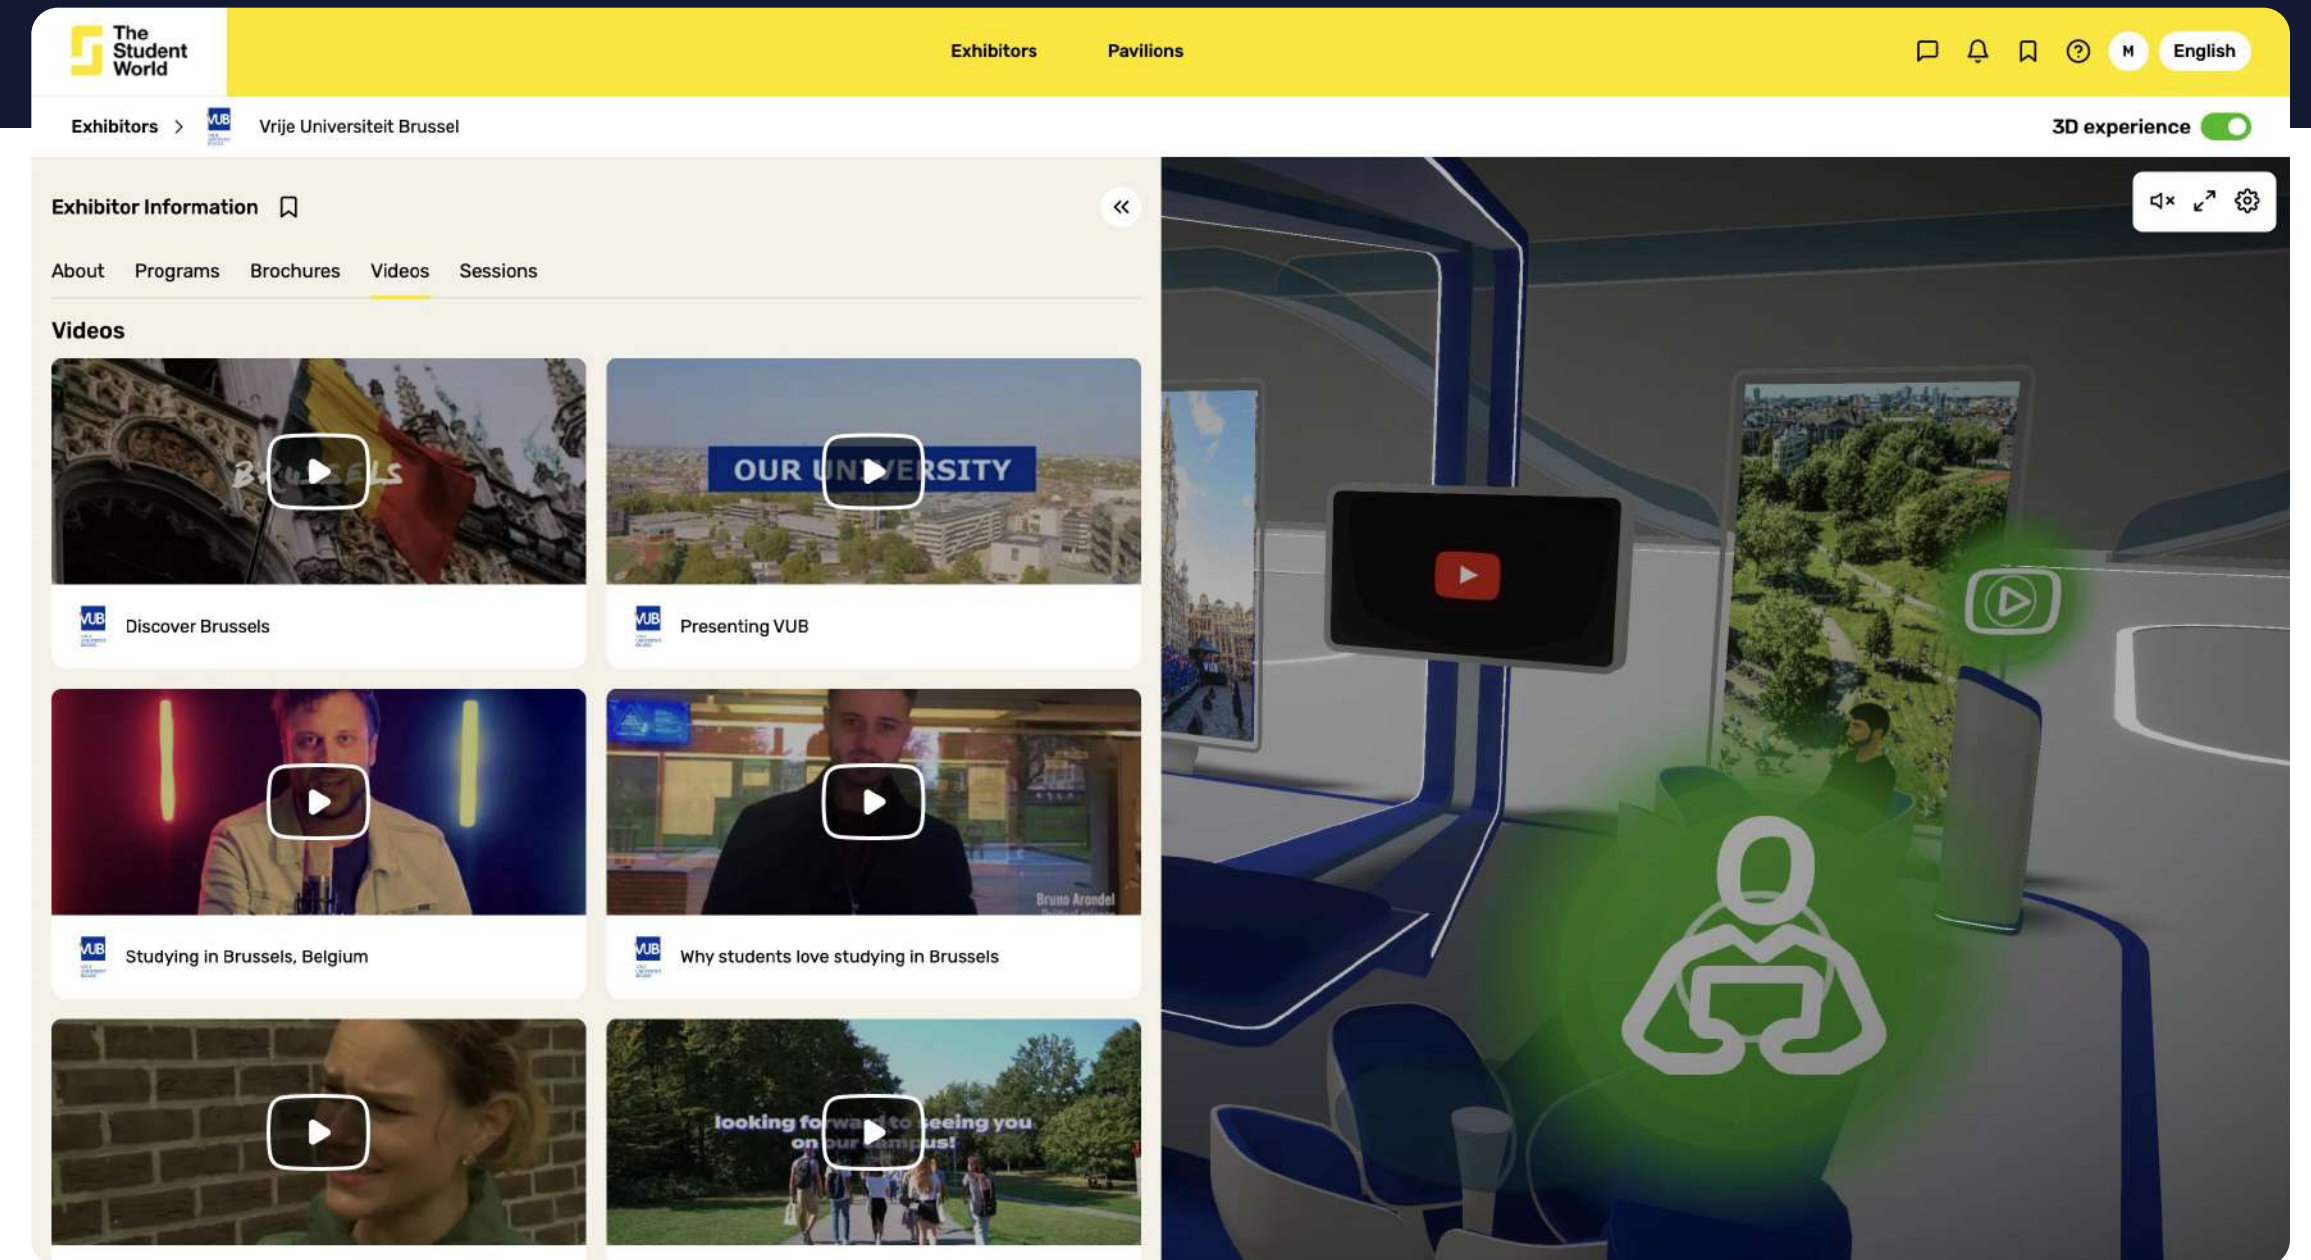

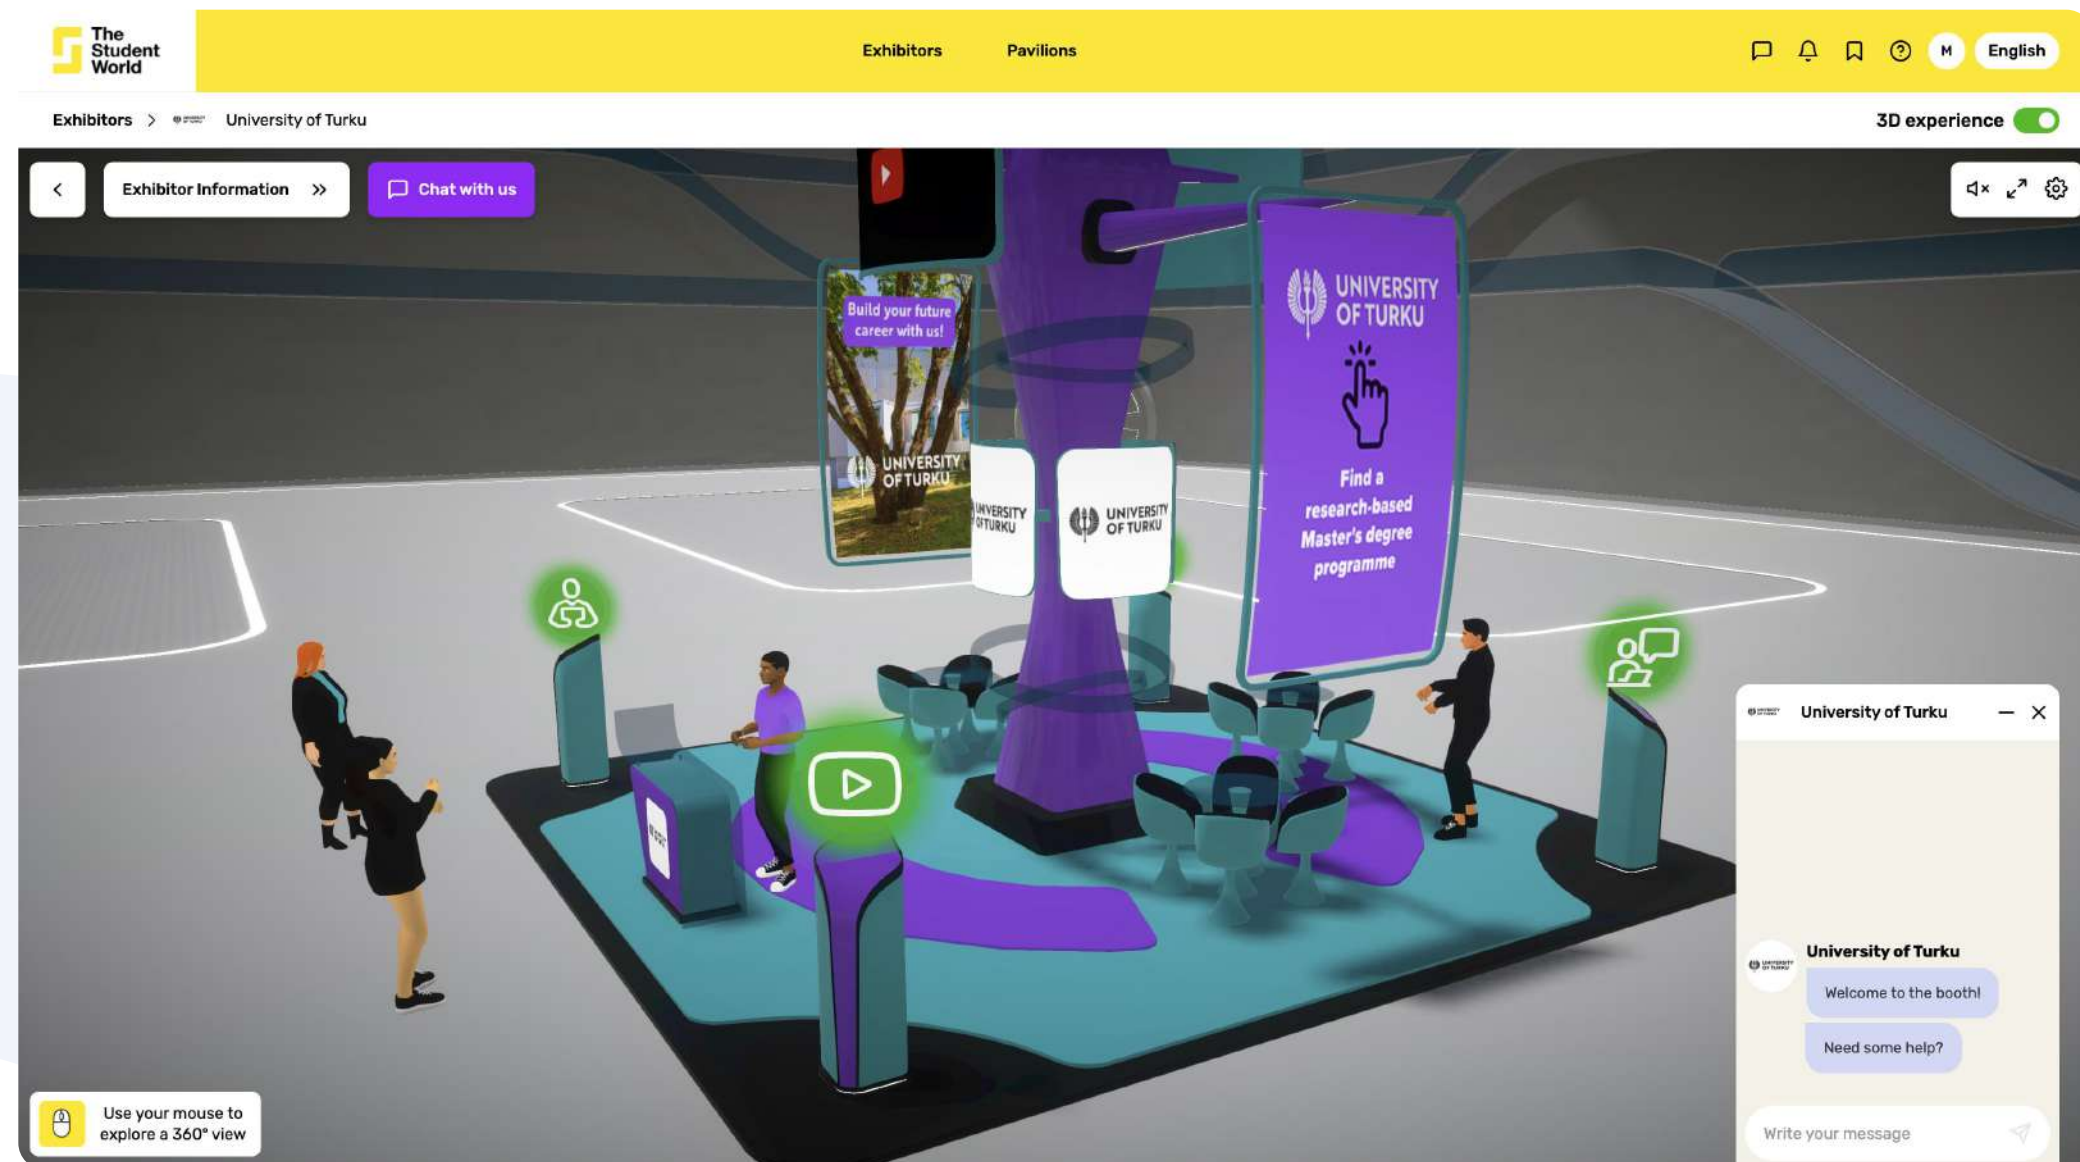

Your interactive Booth

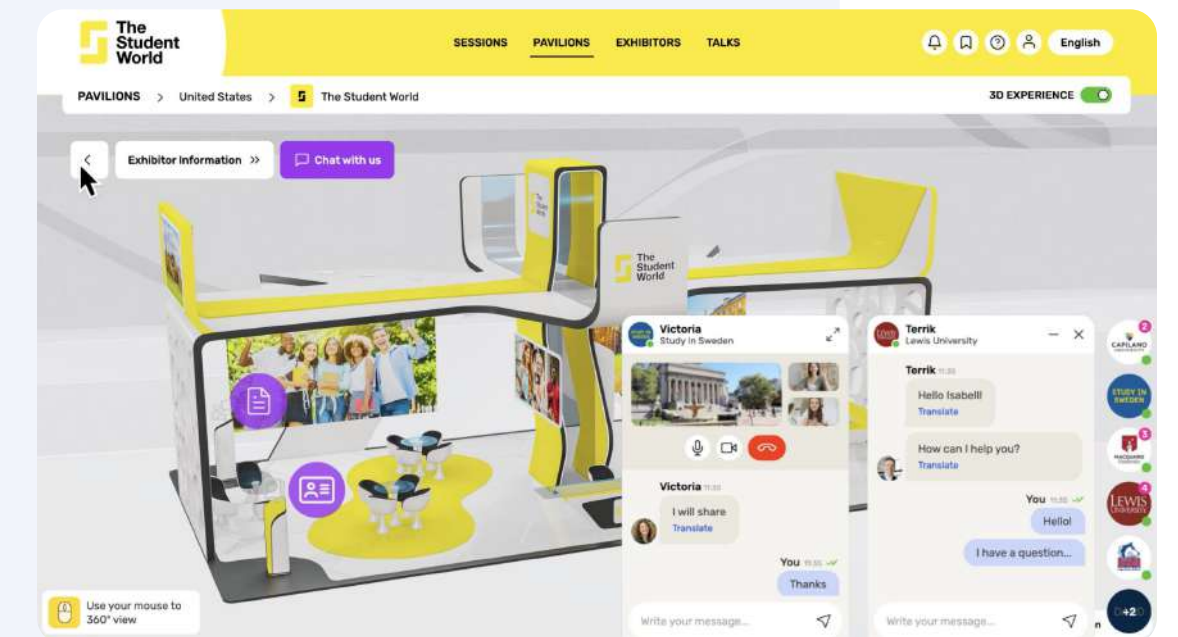

How students explore & engage with you

Showcase the right stuff, in the best way

Your interactive and customizable booth is unique and effectively captures student attention, delivering the information you want showcased and enables live connections between students & representatives.

Students visiting your booth can explore your materials, like **brochures, videos & photos**, saving whatever they want to view again later in their own student app.

Smart chat features

Engaging with students

Efficient use of students' & your time

With the ability to have multiple conversations on the go at any one time, and the possibility to reassign and arrange chats in a user friendly way, both you & prospective undergraduate students can make the best use of your time!

The screenshot shows the FPP (Future Professional Profile) chat interface. At the top, there's a navigation bar with 'The Student World' and 'FPP' logos, and tabs for 'Chats', 'My Booth', 'Pavilions', and 'Exhibitors'. Below this, a list of messages is displayed, categorized by status: 'Unassigned', 'Assigned to me', 'Archived', and 'Blocked'. The 'Assigned to me' category is selected, showing a list of messages with student names, match percentages, and timestamps. A detailed chat view is open on the right, showing a conversation with 'Ece' (90% match). The chat history includes a message from 'Luuk' (95% match) and a message from 'Ece' (90% match). A yellow banner at the bottom of the chat view states 'You assigned this chat to yourself'.

Your representatives connect to students through 1-1 text or video chat, with full insight into profiles and how well they match with your institution. Every student is automatically synced to your FPP hub as a unique lead.

This screenshot shows a chat conversation. At the top, there's a header with 'You' and 'a minute ago'. Below this, a yellow banner reads 'Masterbrochure Stockholm University'. A green message bubble contains the text: 'I've just shared our brochure for masters programmes above - check out page 12 for our courses in psychology!'. Below this, another green message bubble asks: 'Do you want to jump on a call to discuss your thoughts?'. A yellow banner below this reads 'Video call invitation'. At the bottom, there's a text input field with the placeholder 'Write your message...' and a send button.

This screenshot shows a video call invitation overlay. At the top, it says 'Video call'. Below this, there's a circular profile picture of a woman. The text reads: 'Victoria • Study in Sweden' and 'The call will start as soon as you accept it.' At the bottom, there are two buttons: a red button with a white 'X' and a green button with a white telephone handset icon.

This screenshot shows a student profile page. At the top, there's a yellow header with a bell icon, a question mark icon, the 'Stockholm University' logo, and the text 'English'. Below this, the profile section is titled 'Profile' with a right arrow. The profile includes a 'You fit each other:' section with a '90% Match' badge. Below this, there are two questions: 'Is It Essential For You To Work While Studying?' and 'Planning To Stay After Your Program To Acquire Professional Experience?'. Both questions have a 'Yes' option selected. The profile also includes sections for 'School Size' (Not relevant selected), 'Program' (Undergrad selected), 'Interest Areas' (Political Science and Public Policy selected), 'Languages' (English selected), and 'Countries Of Interest' (Sweden selected).

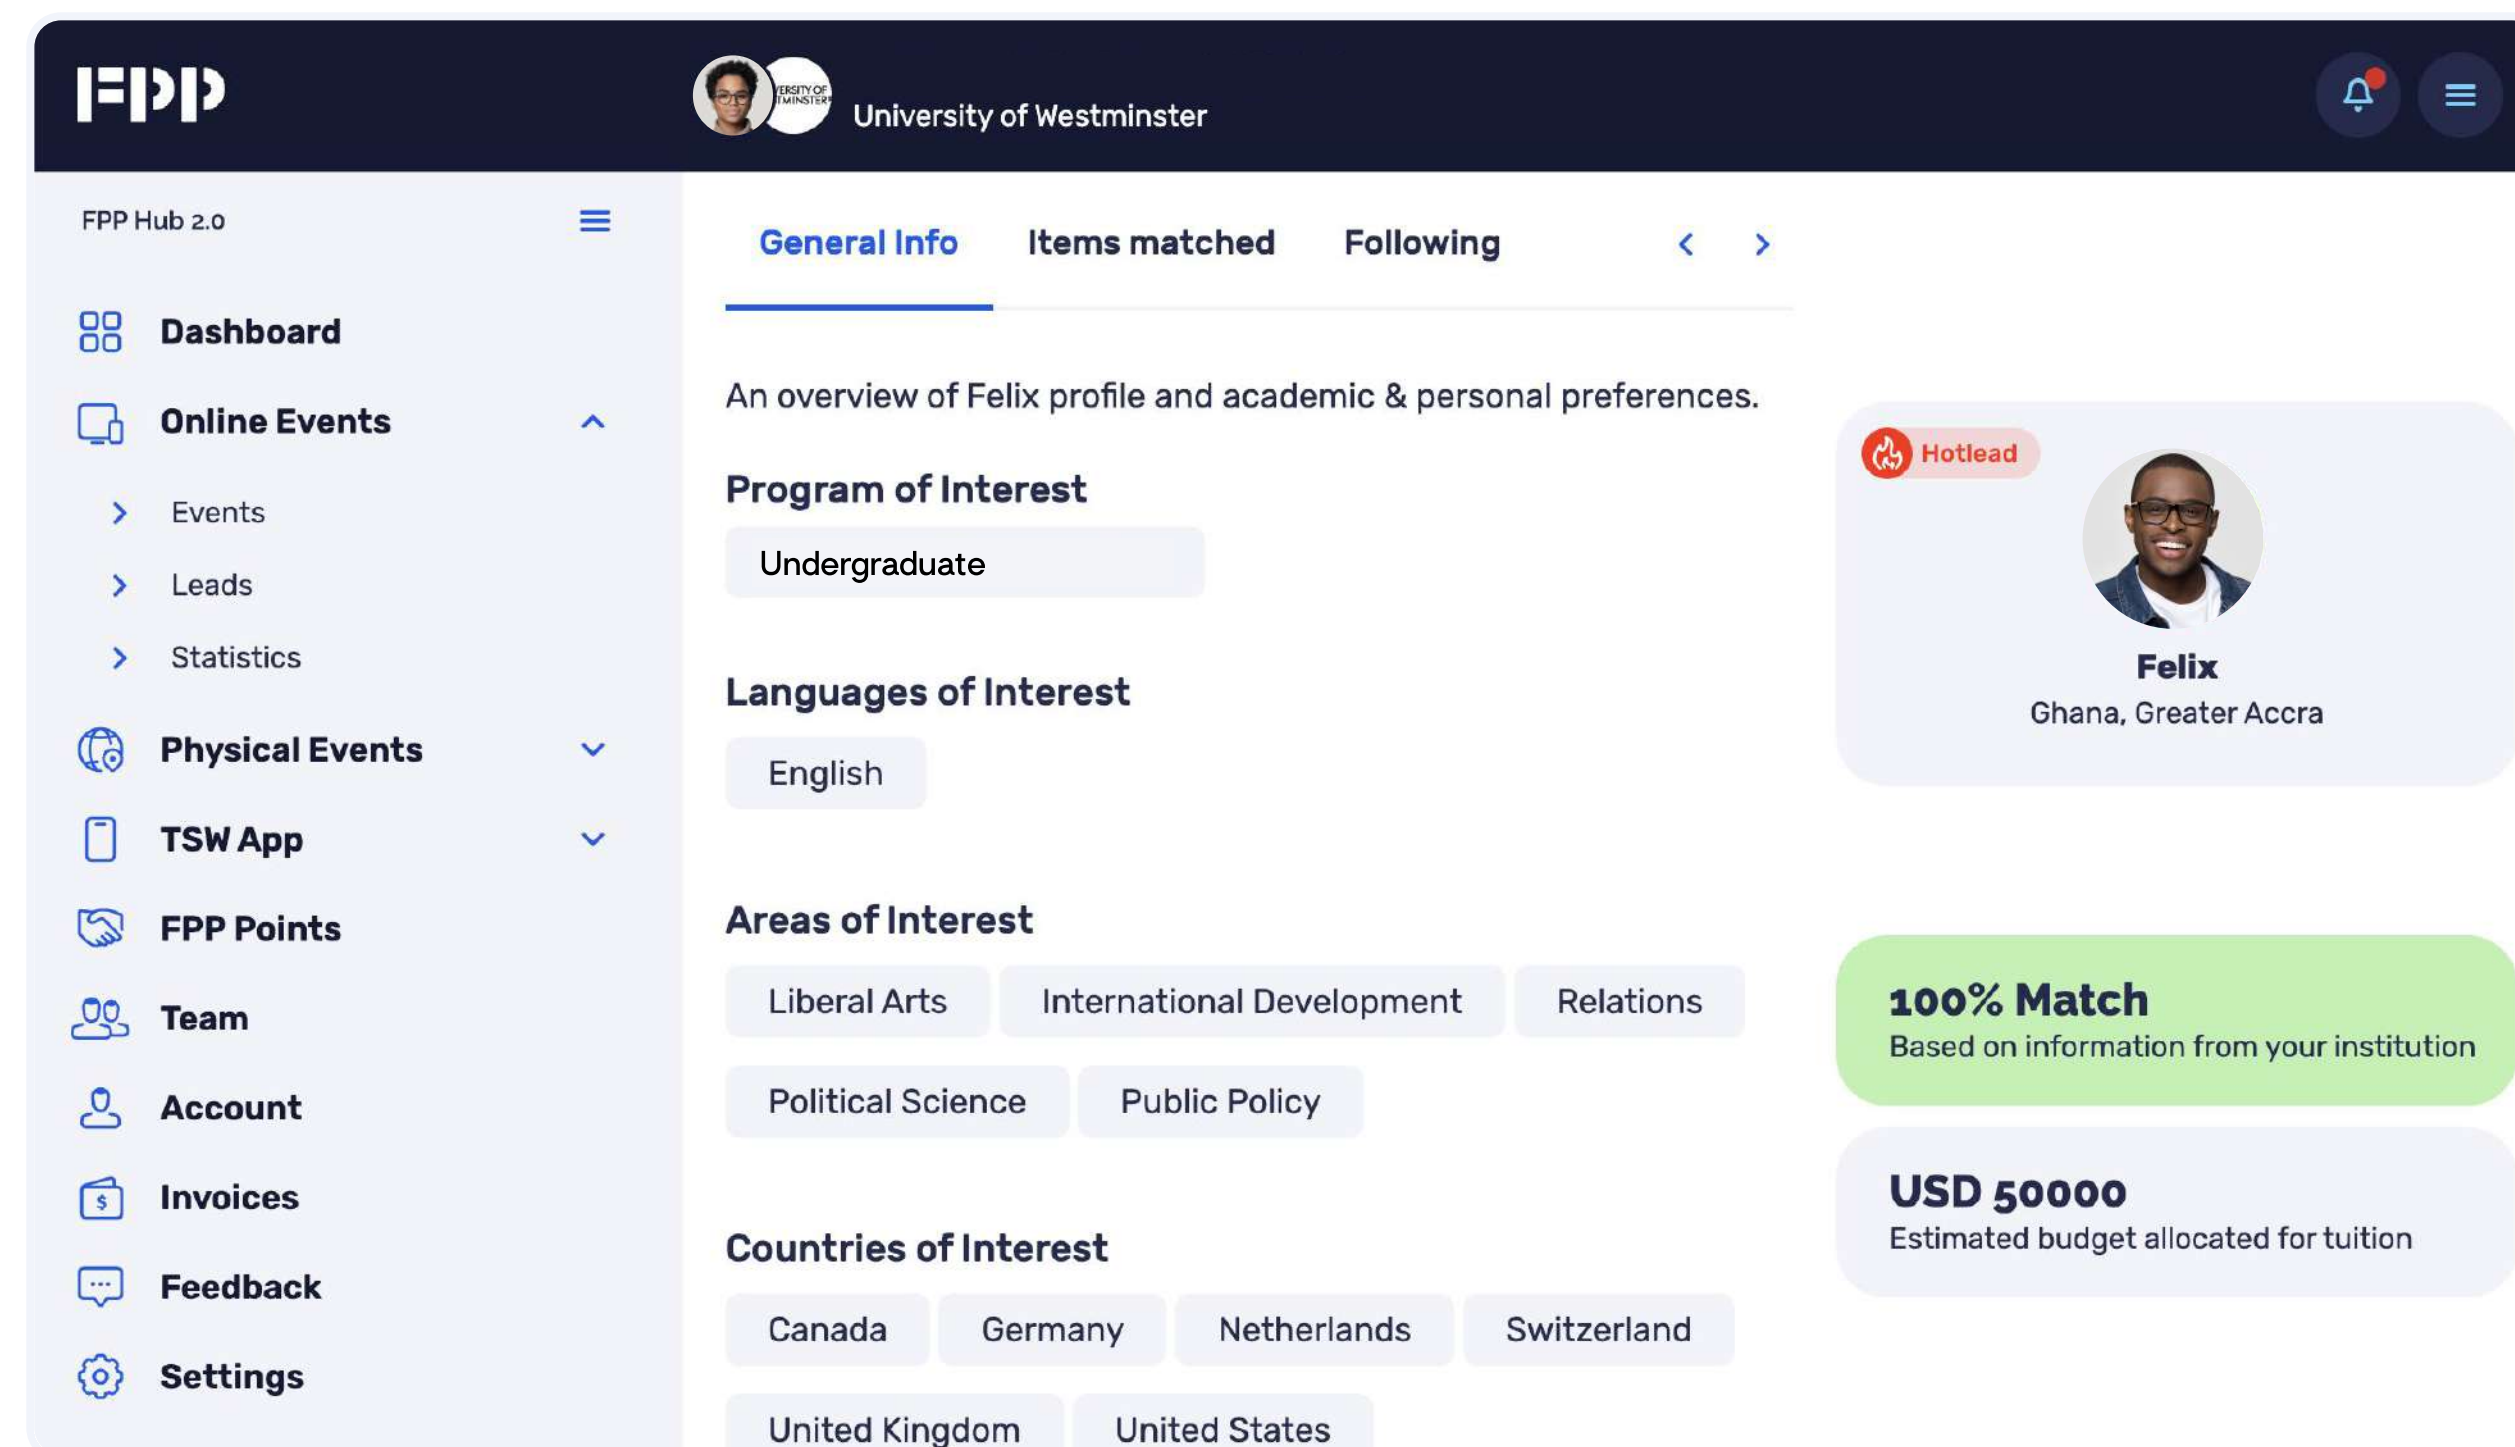

Better connections, better connected

Smart Matching & Lead management

Technology for better connections

Using our **Smart Matching System**, students get unique matching scores for each exhibitor at an event, immediately after registering. This helps ensure they don't miss out on great opportunities, and that you meet students who have a stronger chance of conversion.

Post-event lead management

Profiles of all students who visited your booth or chatted with your representatives are available in your FPP Hub. You'll be able to follow up with them directly from your Hub, synced to your inbox for ease, and/or integrate the contacts with your CRM.

Be where students are

After the fair, each of your leads will automatically "follow" your institution in the dedicated app for students. This means that if you follow up with them via your FPP Hub, they'll get instant push notifications in the app, improving engagement.

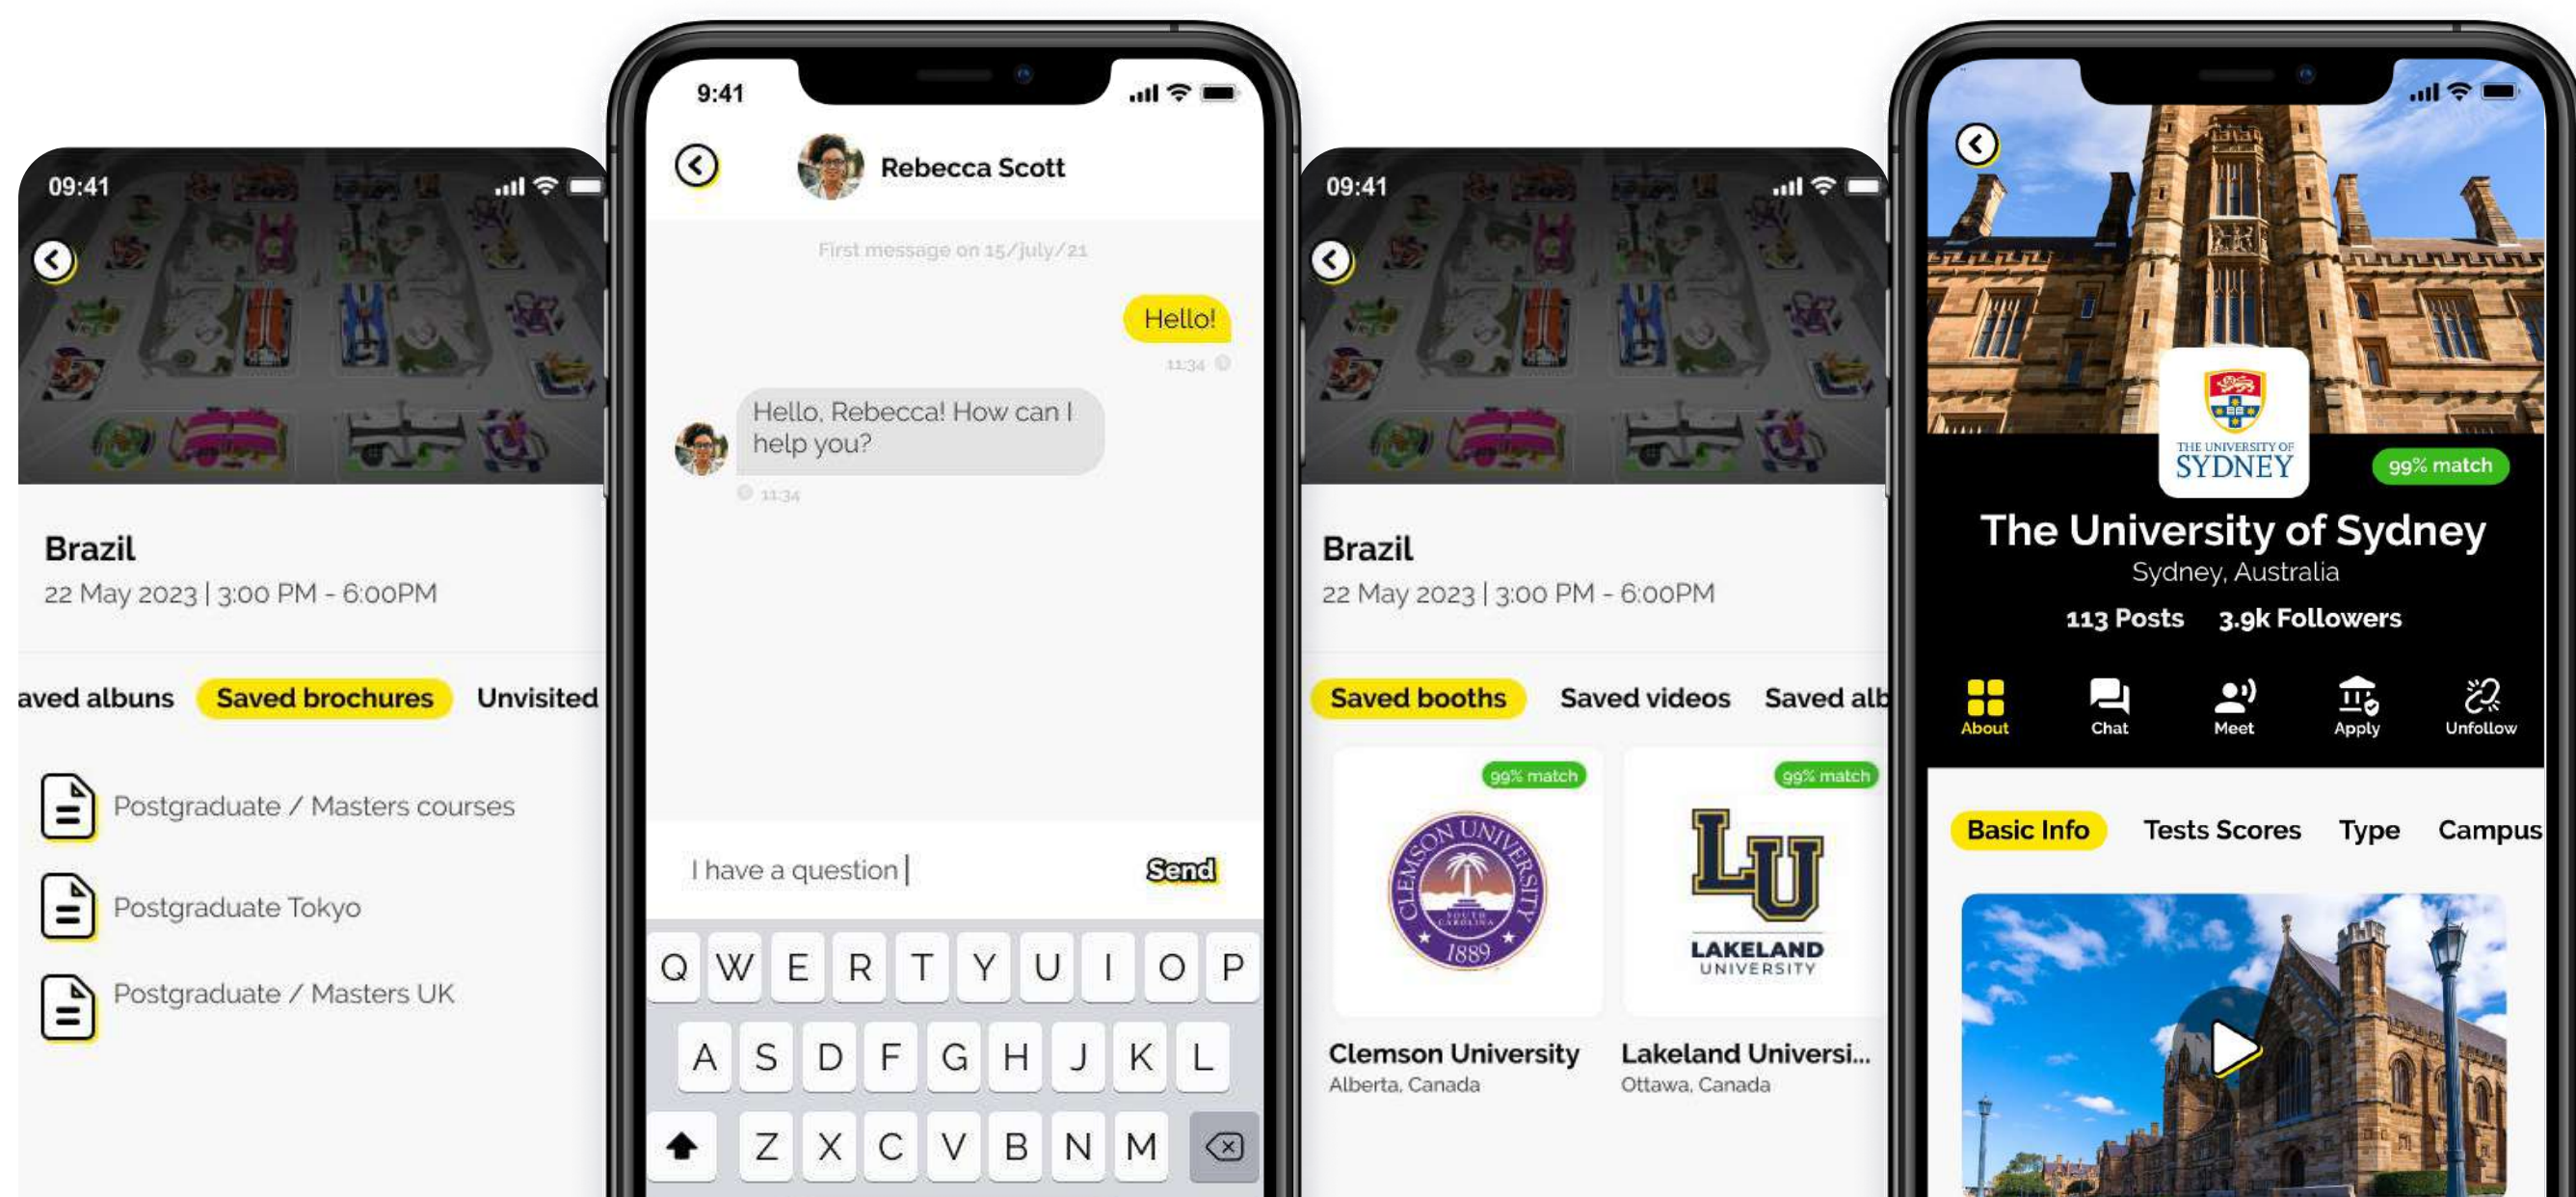

The Student World app

Making post-event connections easier

Students you engage with are automatically added to your institutions' community in the **The Student World app**, where they can re-explore your institutional profile and review all of their activity.

You can send follow-up messages to your new leads either from your FPP Hub **or directly from your inbox**. However you choose to nurture your leads, when they are on the app, any messages you send will appear as **push notifications on their phones**. This means an increased response rate.

Online High School Visit pricing

- ★ Strong students, advance knowledge of schools
- ★ Booth includes 1-1 chat for on-demand conversations with students, group chat coming 2024
- ★ Interactive 3D booth with brochures, photos, videos
